

Boards of Inquiry

Siemens IT Solutions and Services is an Australian company with over 15 years experience in providing specialist software solutions to both the public and private sectors in the key markets of Law Enforcement, Government and Regulatory Agencies, and Boards of Inquiry. Eden is a key provider of digital evidence management solutions.

Designed to support inquiries of any nature, GEMS™ is an intuitive evidence management system that improves the efficiency of any investigative team. Employing a familiar user-friendly interface, GEMS™ facilitates full document imaging and storage, enabling investigators to work with electronic copies of evidence minimising the handling of originals. GEMS™ includes an advanced yet simple search capability, which can significantly improve the time required for the discovery process.

GEMS™ is ideal for all Boards of Inquiry as it's designed to manage all aspects of

submissions and investigations while assembling documentary material for analysis and review. The Royal Australian Navy (RAN) used GEMS™ to digitalise documentary evidence set before the Westralia Inquiry and was able to provide advanced capabilities to enable analysis and assessment of all material evidence.

Benefits of GEMS™

- Manage volumes of electronically stored information all from one simple interface
- Fast and simple scanning process allows you to scan directly into a specific case
- Easy archiving of documents
- Strong record keeping of information
- Easily link information to documents, statements, events, audio/ video and more
- Advanced search, tracking, and reporting capabilities

Overview

Innovation for generations.

SIEMENS

GEMSTM is experienced in the courts and is proven to maintain the chain of evidence. GEMSTM holds a pedigree of success in supporting several iconic Australian cases over the last decade. GEMSTM can be scaled to meet all your requirements, it is suitable for small inquiries right up to the largest case in history.

Eden Technology Siemens works closely with all clients to identify and understand how GEMSTM will integrate into their business process. Understanding our clients' needs allows Eden to tailor GEMSTM to exceed your expectations. For more information contact us at sis.sales.au@siemens.com or visit us at www.siemens.com.au/it-solutions

About Siemens

Our world is rapidly changing due to four global megatrends – climate change, urbanisation, globalisation and demographic change. The pressures brought on by these four global megatrends can affect businesses and individuals significantly. Siemens has a portfolio of technology-based solutions to help tackle such challenges.
