

Evidence management

Siemens is a specialist technology company with 30 years experience in delivering innovative software solutions and services to the Defence, Maritime and Evidence Management industries. Siemens offers software development, application integration and a variety of consultancy, training, and project management services.

Designed to support any type of investigation, GEMS™ is an intuitive evidence management system that improves the efficiency of any investigative team. Employing a familiar user-friendly interface, GEMS™ facilitates full document imaging and storage, enabling investigators to work with electronic copies of evidence minimising the handling of originals. GEMS™ has a pedigree for managing investigations with:

Law Enforcement Agencies

- Cost effective operation
- Secure chain of evidence
- Proven in Court

Government & Regulatory Agencies

- Management and support of disciplinary action
- Develop stake hold reports
- Provide evidence to tribunals

Boards of Inquiry

- Registration of documents
- Facilitates and records review process
- Generates final reports

Professional Services

- Single repository for all forms of digital evidence
- Searchable and efficient collaboration tools
- Provides for secure and portable delivery of brief

Overview

Innovation for generations.

SIEMENS

Providing robust support, all from one easy-to-use platform, GEMS™ can reduce the time and costs associated with small-scale to large complex cases. GEMS™ delivers a comprehensive suite of integrated applications, ensuring a secure and efficient discovery process from collection and processing through to evidence review and document production (eBrief).

Siemens works closely with all clients to identify and understand how GEMS™ will integrate into their business process. Understanding our clients' needs allows Edén to tailor GEMS™ to exceed your expectations.

About Siemens

Our world is rapidly changing due to four global megatrends – climate change, urbanisation, globalisation and demographic change. The pressures brought on by these four global megatrends can affect businesses and individuals significantly. Siemens has a portfolio of technology-based solutions to help tackle such challenges.
