

Government and regulatory agencies

Siemens is an Australian company with 15 years experience in providing specialist software solutions to both the public and private sectors in the key markets of Law Enforcement, Government and Regulatory Agencies, and Boards of Inquiry. Eden is a key provider of digital evidence management solutions.

Designed to support any type of investigation, GEMS™ is an intuitive evidence management system that improves the efficiency of any investigative team. Employing a familiar user-friendly interface, GEMS™ facilitates full document imaging and storage, enabling investigators to work with electronic copies of evidence minimising the handling of originals. GEMS™ has been developed by investigators for investigators.

Siemens has experience in delivering comprehensive, robust, and feature-rich solutions to government agencies.

GEMS™ is designed to support risk and compliance management, assisting investigators with gathering documentary material that will enable them to manage and support disciplinary action.

The Australian Prudential Regulatory Authority (APRA) uses GEMS™ to develop stakeholder reports for consideration by senior management prior to making administrative decisions whether to disqualify or prosecute an individual.

GEMS™ produces written and electronic briefs of evidence that can be passed directly to counsel. It is proven in court and where necessary can assist in providing evidence in Tribunals or during prosecutions through all levels of the courts. GEMS™ holds a pedigree of success in supporting several iconic Australian cases over the last decade. GEMS™ can be scaled to meet every requirement, it is suitable for small investigations right up to the largest case in history.

Overview

Innovation for generations.

SIEMENS

Overview

Key Integrated Modules

About Siemens

Our world is rapidly changing due to four global megatrends – climate change, urbanisation, globalisation and demographic change. The pressures brought on by these four global megatrends can affect businesses and individuals significantly. Siemens has a portfolio of technology-based solutions to help tackle such challenges.
